

CLEANS • PRESERVES • EXTENDS

## THE FUEL PURIFIER 80

### PRODUCT NUMBER:

TFP 80

### PRODUCT DESCRIPTION:

The fuel purifier is a one-step unit that removes up to 99.8% of free water and up to 95% of other heavy contaminants that are found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated during transportation and storage. Unlike many other products on the market, the fuel purifier performs this function without the use of a replaceable, changeable, or cleanable filter element or cartridge. By removing contamination immediately before the fuel enters the engine's filter system, you can keep your fuel clean, preserve fuel quality, and extend the life of your equipment.

The TFP 80 is designed for diesel powered trucks, portable generators and other small to midsize engines including refrigeration units for trailers and marine equipment.

### PRODUCT FEATURES:

<b>Product</b>	The Fuel Purifier
<b>Model</b>	TFP 80
<b>Nominal Flow</b>	1 GPM (3.8 L/min)
<b>In &amp; Out Couplings</b>	1/2" NPT
<b>Top Port</b>	1/2" NPT
<b>Sensor Port</b>	1/2" – 20 Straight Thread
<b>Heater Port</b>	1/2" NPT
<b>Drain Port</b>	1/2" NPT
<b>Drain Valve</b>	1/2" M-F brass valve
<b>Height</b>	8" (203.2 mm)
<b>Width</b>	4 1/2" (114.3 mm)
<b>Gross Weight</b>	6 lbs. (incl. mfg. hardware)
<b>Sump Capacity</b>	8 oz.
<b>Finish</b>	Polyester Black Powder Coat – 35 to 40 gloss
<b>Options</b>	Water Sensor Kit Heater Element
